📇 PROFILE

Self-taught developer with 3 years of coding experience, embodying autonomy, a proactive can-do attitude, and strong problem solving skills. I specialize in implementing best practices and ensuring meticulous attention to detail in development tasks. Nice to meet you.

💼 PROFESSIONAL EXPERIENCE

RoyalRoad, *React Native / FrontEnd developer*

Jul 2023 – present

- Ported website (royalroad.com) to React Native.
- Identified threats and helped prevent traffic from bots

Tara Interactive, *Full Stack Developer*

Feb 2022 – Jun 2023

- Worked on multiple React projects from start to finish
- Developed a notification system using **Socket.Io**
- Developed complex state management systems using **Redux**, Redux Toolkit and Redux Thunk and React's useContext hook
- Created and maintained **API endpoints** in NodeJs, NestJs and C#.
- Implement **internationalization** using react-i18next
- Conducted code **profiling** to identify bottlenecks, addressed the identified issues, and optimized both front-end and back-end code
- Did **Unit testing** and **End to End** testing using Jest and Puppeteer
- **Deployed code** to Production, Staging and QA environments
- Implemented **Stripe** integration for client's e-commerce website
- Developed reusable, component-based code following modern **best practices** to enhance code maintainability and scalability.
- Solo ported a website to React Native
- Implemented **authentication**, authorization, GDPR, file uploads / downloads, micro-services and **CRUD** on different projects.

📁 PROJECTS

Chatify, *Full Stack Chat application*
Github: github.com/JustLenard/webSocketApp ↗
Live Demo: chatify-app.up.railway.app ↗

Features:
- **Real time, full stack** chat application
- Responsive design
- Group and one on one chat
- Ability to chat with some unique personalities created with OpenAi's gpt-3.5 model
- **CRUD** (Create, read, edit and delete) functionality for messages
- Real time, persistent **notifications** created when you receive a message
- Sign up, persistent login and automatic access token refresh

Frontend Technologies: React, TypeScript, Redux Toolkit, Context API, Socket.IO, Axios and axios interceptors

Backend Technologies: NestJS, TypeScript, PostgreSQL, TypeORM, JWT, OpenAI API (gpt-3.5-turbo), Argon2, Guards

Ai Cover Letter Creator
Github: github.com/JustLenard/CoverLetterCreator ↗
Live Demo: https://ai-cover-letter-creator.up.railway.app ↗

This app creates a customized cover letter in just 3 easy steps with the power of ChatGpt 4.
Technologies: NextJs, TypeScript, MUI, Tailwind CSS

🧠 SKILLS

React / Nextjs / React Native
Redux Toolkit, Redux Thunk, React-router, Formik, Webpack, Antd, MUI, REST, GraphQL

NodeJs / NestJS
Express, MVC, OOP, Pupeeter, Cheerio, GraphQL

TypeScript / JavaScript
webSockets, async/await, Axios, events, try/catch

Python
WebScrapping, Selenium, Beatiful Soup

PostgreSQL
TypeORM, joins, CRUD

DevOps
Linux, Docker

Html / Css
Scss, Sass, Styled Components

Jest
Unit and End to End Testing, React Testing Library

📜 CERTIFICATES

JavaScript & React course from Absolute School
-Earned a flawless 10/10 score on both the project and final
-This government-recognized course serves as valuable documentation for taxation and completion verification.

🎓 EDUCATION

Self Tought

Mar 2021 – Feb 2022

Heavily utilized The Odin Project curriculum to gain a comprehensive understanding of industry best practices and core concepts
